

Pre-Operative Instructions

1 General pre-surgical instructions

- **Clean your mouth** and teeth prior to surgery.
- **Dress comfortably.**
- Plan for a **soft diet** for the recommended duration after your surgery (generally ~3-5 days).
- **If given permission** to continue your prescribed medications, you may take them with sips of water as normal.
- **Inform your surgeon** if you feel ill, are heavily congested, have a productive cough, fever or chills as we may recommend postponing your surgery.

2 IV Sedation instructions

- **Follow all general instructions above.**
- No food or dairy products should be consumed for **8 hours** prior to surgery.
- **Water** can be consumed in small sips up to **2 hours** prior to surgery.
- Ensure a **responsible adult is present in the office** during your surgery and is available to drive you home.

NOTE: For the safety of our patients, **no Ubers/Lyfts are allowed.**

- **Minors (under age 18)** must have a parent or legal guardian present for either the initial consultation or the time of surgery to obtain consent.

To better serve all of our patients, please notify us at least 24 hours in advance if you need to cancel or reschedule your visit
